

*Gruppo Aturia: SUBMERSIBILE*

**ELETTROPOMPE SOMMERSE  
SUBMERSIBLE ELECTRIC PUMPS  
ELETTROPOMPE IMMERGEE**

# Pompe Sommerse / Submersible Pumps / Pompes Immergées

## Legend:

# APN14

# 6"

# APN14

## Pompa radiale

Sollevamento di acqua pulita per **pozzi da 6"**  
 ◆ Max. contenuto di solidi (limo): 30g/m<sup>3</sup>

### Funzionamento:

Hz: 50    2poli    γ:1

### Materiali:

Girante radiale : Noryl  
 Diffusore: Noryl  
 Corpo di stadio : Ghisa  
 Albero: Acciaio inox (AISI 420)  
 Valvola di ritegno: Ghisa  
 Griglia d'aspirazione: Acciaio inox  
 Viteria: Acciaio inox (AISI 304)

### APN14

(Acqua potabile)

Senso di rotazione: Orario (*visto dalla bocca di mandata*)

## Radial-Flow Pump

Clean water lifting for **wells 6"**  
 ◆ Max. content of solids (silt): 30g/m<sup>3</sup>

### Operation:

Hz 50    2poles    γ:1

### Materials:

Radial flow impeller : Noryl  
 Diffuser: Noryl  
 Pump body : Cast-iron  
 Shaft: Stainless steel (AISI 420)  
 Non-return valve: Cast-iron  
 Suction strainer: Stainless steel  
 Nuts, bolts and screws: Stainless steel (AISI 304)

### APN14

(Drinkwater)

Direction of rotation: Clockwise (facing delivery side)

## Pompe Radiale

Soulèvement d'eau propre pour **puits de 6"**  
 u Contenu maximum de substances solides (limon): 30g/m<sup>3</sup>

### Fonctionnement:

Hz 50    2poles    γ:1

### Materiaux:

Roue radiale: Noryl  
 Diffuseur: Noryl  
 Corps d'étage: Fonte  
 Arbre: Acier inox (AISI 420)  
 Clapet de non retour: Fonte  
 Crépine d'aspiration: Acier inox  
 Visserie: Acier inox (AISI 304)

### APN14

(Eau potable)

Sens de rotation: Horaire (vu par la goulotte de refoulement)

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

- Corrente massima assorbita (motore) a 400V
- Max absorbed current (motor) at 400V
- Courant max. absorbée (moteur) at 400V

◆ Min.recommended head of water above pump suction : m

◆ Niveau min.recommandé en mètres sur l'aspiration

◆ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

◆ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

◆ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

- Corrente massima assorbita (motore) a 400V
- Max absorbed current (motor) at 400V
- Courant max. absorbée (moteur) at 400V

♣ Min.recommended head of water above pump suction : m

♣ Niveau min.recommandé en mètres sur l'aspiration

◇ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

◇ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

◇ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

## XRN6

### Pompa Semiassiale

Sollevamento di acqua pulita per **pozzi da 6"**  
 ◆ Max. contenuto di solidi (limo): 50g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
| <b>Materiali:</b>      | (Acqua potabile)        | (Acqua di mare)         |
| Girante semiassiale :  | Ghisa, AISI 316, Bronzo | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

*A richiesta si possono fornire pompe in Acciaio Inox fuso.*

Senso di rotazione: Antiorario (visto dalla bocca di mandata)

### Mixed-Flow Pump

Clean water lifting for **wells 6"**  
 ◆ Max. content of solids (silt): 50g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

|                         |                             |                            |
|-------------------------|-----------------------------|----------------------------|
| <b>Materials:</b>       | (Drinkwater)                | (Seawater)                 |
| Mixed flow impeller :   | Cast-iron, AISI 316, Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                   | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420)  | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                   | Zinc free Bronze           |
| Suction strainer:       | Stainless steel             | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304)  | Stainless steel (AISI 316) |

*On request the pumps can be manufactured in cast Stainless Steel.*

Direction of rotation: Counter-clockwise (facing delivery side)

### Pompe Semiassiale

Soulèvement d'eau propre pour **puits de 6"**  
 u Contenu maximum de substances solides (limon): 50g/m<sup>3</sup>

**Fonctionnement:**

Hz 50    2poles    γ:1

|                        |                         |                       |
|------------------------|-------------------------|-----------------------|
| <b>Materiaux:</b>      | (eau potable)           | (Eau de mer)          |
| Roue helicocentrifuge: | Fonte, AISI 316, Bronze | Bronze sans Zinc      |
| Corps d'étage:         | Fonte                   | Bronze sans Zinc      |
| Arbre:                 | Acier inox (AISI 420)   | Acier inox (Duplex)   |
| Clapet de non retour:  | Fonte                   | Bronze sans Zinc      |
| Crépine d'aspiration:  | Acier inox)             | Acier inox            |
| Visserie:              | Acier inox (AISI 304)   | Acier inox (AISI 316) |

*Sur demande on peut fournir des pompes en Acier Inox fondé.*

Sens de rotation: Anti-horaire (vu par la goulotte de refoulement)

## Pompa Semiassiale

Sollevamento di acqua pulita per **pozzi da 6"**  
 ◆ Max. contenuto di solidi (limo): 50g/m<sup>3</sup>

### Funzionamento:

Hz: 50    2poli    γ:1

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
| <b>Materiali:</b>      | (Acqua potabile)        | (Acqua di mare)         |
| Girante semiassiale :  | Ghisa, AISI 316, Bronzo | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

A richiesta si possono fornire pompe in Acciaio Inox fuso.

Senso di rotazione: Antiorario (visto dalla bocca di mandata)

## Mixed-Flow Pump

Clean water lifting for **wells 6"**  
 ◆ Max. content of solids (silt): 50g/m<sup>3</sup>

### Operation:

Hz 50    2poles    γ:1

|                         |                             |                            |
|-------------------------|-----------------------------|----------------------------|
| <b>Materials:</b>       | (Drinkwater)                | (Seawater)                 |
| Mixed flow impeller :   | Cast-iron, AISI 316, Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                   | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420)  | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                   | Zinc free Bronze           |
| Suction strainer:       | Stainless steel             | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304)  | Stainless steel (AISI 316) |

On request the pumps can be manufactured in cast Stainless Steel.

Direction of rotation: Counter-clockwise (facing delivery side)

## Pompe Semiassiale

Soulèvement d'eau propre pour **puits de 6"**  
 u Contenu maximum de substances solides (limon):50g/m<sup>3</sup>

### Fonctionnement:

Hz 50    2poles    γ:1

|                        |                         |                       |
|------------------------|-------------------------|-----------------------|
| <b>Materiaux:</b>      | (eau potable)           | (Eau de mer)          |
| Roue helicocentrifuge: | Fonte, AISI 316, Bronze | Bronze sans Zinc      |
| Corps d'étage:         | Fonte                   | Bronze sans Zinc      |
| Arbre:                 | Acier inox (AISI 420)   | Acier inox (Duplex)   |
| Clapet de non retour:  | Fonte                   | Bronze sans Zinc      |
| Crépine d'aspiration:  | Acier inox              | Acier inox            |
| Visserie:              | Acier inox (AISI 304)   | Acier inox (AISI 316) |

Sur demande on peut fournir des pompes en Acier Inox fondé.

Sens de rotation: Anti-horaire (vu par la goulotte de refoulement)

# XN6E

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

- Corrente massima assorbita (motore) a 400V
- Max absorbed current (motor) at 400V
- Courant max. absorbée (moteur) at 400V

♣ Min.recommended head of water above pump suction : m

♣ Niveau min.recommandé en mètres sur l'aspiration

◇ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

◇ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

◇ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

■ Corrente massima assorbita (motore) a 400V  
 ■ Max absorbed current (motor) at 400V  
 ■ Courant max. absorbée (moteur) at 400V

✦ Min. recommended head of water above pump suction : m

✦ Niveau min. recommandé en mètres sur l'aspiration

✦ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

✦ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

✦ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

## Pompa radiale

Sollevamento di acqua pulita per **pozzi da 8"**  
 ◆ Max. contenuto di solidi (limo): 30g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

**Materiali:**

|                        |                                    |                         |
|------------------------|------------------------------------|-------------------------|
|                        | (Acqua potabile)                   | (Acqua di mare)         |
| Girante radiale :      | Ghisa, AISI 316,<br>Noryl o Bronzo | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                              | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420)            | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                              | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox                       | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304)            | Acciaio inox (AISI 316) |

Senso di rotazione: Antiorario (*visto dalla bocca di mandata*)

## Radial-Flow Pump

Clean water lifting for **wells 8"**  
 ◆ Max. content of solids (silt): 30g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

**Materials:**

|                         |  |                            |
|-------------------------|--|----------------------------|
|                         | (Drinkwater)                           | (Seawater)                 |
| Radial flow impeller :  | Cast-iron, AISI 316<br>Noryl or Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                              | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420)             | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                              | Zinc free Bronze           |
| Suction strainer:       | Stainless steel                        | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304)             | Stainless steel (AISI 316) |

Direction of rotation: Counter-clockwise (facing delivery side)

## Pompe Radiale

Soulèvement d'eau propre pour **puits de 8"**  
 u Contenu maximum de substances solides (limon): 30g/m<sup>3</sup>

**Fonctionnement:**

Hz 50    2poles    γ:1

**Materiaux:**

|                       |                                     |                       |
|-----------------------|-------------------------------------|-----------------------|
|                       | (eau potable)                       | (Eau de mer)          |
| Roue radiale:         | Fonte, AISI 316,<br>Noryl ou Bronze | Bronze sans Zinc      |
| Corps d'étage:        | Fonte                               | Bronze sans Zinc      |
| Arbre:                | Acier inox (AISI 420)               | Acier inox (Duplex)   |
| Clapet de non retour: | Fonte                               | Bronze sans Zinc      |
| Crépine d'aspiration: | Acier inox                          | Acier inox            |
| Visserie:             | Acier inox (AISI 304)               | Acier inox (AISI 316) |

Sens de rotation: Anti-horaire (vu par la goulotte de refoulement)

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

■ Corrente massima assorbita (motore) a 400V  
 ■ Max absorbed current (motor) at 400V  
 ■ Courant max. absorbée (moteur) at 400V

♣ Min.recommended head of water above pump suction : m

♣ Niveau min.recommandé en mètres sur l'aspiration

♢ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

♢ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

♢ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

## Pompa Semiassiale

Sollevamento di acqua pulita per **pozzi da 8"**

◆ *Max. contenuto di solidi (limo): 50g/m<sup>3</sup>*

**Funzionamento:**

Hz: 50    2poli    γ:1

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
| <b>Materiali:</b>      | (Acqua potabile)        | (Acqua di mare)         |
| Girante semiassiale :  | Ghisa,AISI 316, Bronzo  | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox (AISI 304) | Acciaio inox (AISI 304) |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

*A richiesta si possono fornire pompe in Acciaio Inox fuso.*

Senso di rotazione: Antiorario (*visto dalla bocca di mandata*)

## Mixed-Flow Pump

Clean water lifting for **wells 8"**

◆ *Max. content of solids (silt): 50g/m<sup>3</sup>*

**Operation:**

Hz 50    2poles    γ:1

|                         |                            |                            |
|-------------------------|----------------------------|----------------------------|
| <b>Materials:</b>       | (Drinkwater)               | (Seawater)                 |
| Mixed flow impeller :   | Cast-iron,AISI 316, Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                  | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420) | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                  | Zinc free Bronze           |
| Suction strainer:       | Stainless steel (AISI 304) | Stainless steel (AISI 304) |
| Nuts, bolts and screws: | Stainless steel (AISI 304) | Stainless steel (AISI 316) |

*On request the pumps can be manufactured in cast Stainless Steel.*

Direction of rotation: Counter-clockwise (*facing delivery side*)

## Pompe Semiassiale

Soulèvement d'eau propre pour **puits de 8"**

u *Contenu maximum de substances solides (limon):50g/m<sup>3</sup>*

**Fonctionnement:**

Hz 50    2poles    γ:1

|                        |                         |                       |
|------------------------|-------------------------|-----------------------|
| <b>Materiaux:</b>      | (eau potable)           | (Eau de mer)          |
| Roue helicocentrifuge: | Fonte, AISI 316, Bronze | Bronze sans Zinc      |
| Corps d'étage:         | Fonte                   | Bronze sans Zinc      |
| Arbre:                 | Acier inox (AISI 420)   | Acier inox (Duplex)   |
| Clapet de non retour:  | Fonte                   | Bronze sans Zinc      |
| Crépine d'aspiration:  | Acier inox (AISI 304)   | Acier inox (AISI 304) |
| Visserie:              | Acier inox (AISI 304)   | Acier inox (AISI 316) |

*Sur demande on peut fournir des pompes en Acier Inox fondé.*

Sens de rotation: Anti-horaire (*vu par la goulotte de refoulement*)

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

■ Corrente massima assorbita (motore) a 400V  
 ■ Max absorbed current (motor) at 400V  
 ■ Courant max. absorbée (moteur) at 400V

♣ Min.recommended head of water above pump suction : m

♣ Niveau min.recommandé en mètres sur l'aspiration

♣ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

♣ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

♣ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

### Pompa radiale

Sollevamento di acqua pulita per **pozzi da 10"**  
 ◆ Max. contenuto di solidi (limo): 30g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
| <b>Materiali:</b>      | (Acqua potabile)        | (Acqua di mare)         |
| Girante radiale :      | Ghisa, AISI 316, Bronzo | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

Senso di rotazione: Antiorario (*visto dalla bocca di mandata*)

### Radial-Flow Pump

Clean water lifting for **wells 10"**  
 ◆ Max. content of solids (silt): 30g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

|                         |                             |                            |
|-------------------------|-----------------------------|----------------------------|
| <b>Materials:</b>       | (Drinkwater)                | (Seawater)                 |
| Radial flow impeller :  | Cast-iron, AISI 316, Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                   | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420)  | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                   | Zinc free Bronze           |
| Suction strainer:       | Stainless steel             | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304)  | Stainless steel (AISI 316) |

Direction of rotation: Counter-clockwise (facing delivery side)

### Pompe Radiale

Soulèvement d'eau propre pour **puits de 10"**  
 u Contenu maximum de substances solides (limon): 30g/m<sup>3</sup>

**Fonctionnement:**

Hz 50    2poles    γ:1

|                       |                        |                       |
|-----------------------|------------------------|-----------------------|
| <b>Materiaux:</b>     | (eau potable)          | (Eau de mer)          |
| Roue radiale:         | Fonte, AISI316, Bronze | Bronze sans Zinc      |
| Corps d'étage:        | Fonte                  | Bronze sans Zinc      |
| Arbre:                | Acier inox (AISI 420)  | Acier inox (Duplex)   |
| Clapet de non retour: | Fonte                  | Bronze sans Zinc      |
| Crépine d'aspiration: | Acier inox             | Acier inox            |
| Visserie:             | Acier inox (AISI 304)  | Acier inox (AISI 316) |

Sens de rotation: Anti-horaire (vu par la goulotte de refoulement)

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

- Corrente massima assorbita (motore) a 400V
- Max absorbed current (motor) at 400V
- Courant max. absorbée (moteur) at 400V

♣ Min.recommended head of water above pump suction : m

♣ Niveau min.recommandé en mètres sur l'aspiration

◇ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

◇ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

◇ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

## XN10

### Pompa Semiassiale

Sollevamento di acqua pulita per **pozzi da 10"**  
 ◆ Max. contenuto di solidi (limo): 50g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

**Materiali:**

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
|                        | (Acqua potabile)        | (Acqua di mare)         |
| Girante semiassiale :  | Ghisa,AISI 316, Bronzo  | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

*A richiesta si possono fornire pompe in Acciaio Inox fuso.*

Senso di rotazione: Antiorario (*visto dalla bocca di mandata*)

### Mixed-Flow Pump

Clean water lifting for **wells 10"**  
 ◆ Max. content of solids (silt): 50g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

**Materials:**

|                         |                             |                            |
|-------------------------|-----------------------------|----------------------------|
|                         | (Drinkwater)                | (Seawater)                 |
| Mixed flow impeller :   | Cast-iron, AISI 316, Bronze | Zinc free Bronze           |
| Pump body :             | Cast-iron                   | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420)  | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                   | Zinc free Bronze           |
| Suction strainer:       | Stainless steel             | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304)  | Stainless steel (AISI 316) |

*On request the pumps can be manufactured in cast Stainless Steel.*

Direction of rotation: Counter-clockwise (*facing delivery side*)

### Pompe Semiassiale

Soulèvement d'eau propre pour **puits de 10"**  
 u Contenu maximum de substances solides (limon):50g/m<sup>3</sup>

**Fonctionnement:**

Hz 50    2poles    γ:1

**Materiaux:**

|                        |                       |                       |
|------------------------|-----------------------|-----------------------|
|                        | (eau potable)         | (Eau de mer)          |
| Roue helicocentrifuge: | Fonte,AISI316,Bronze  | Bronze sans Zinc      |
| Corps d'étage:         | Fonte                 | Bronze sans Zinc      |
| Arbre:                 | Acier inox (AISI 420) | Acier inox (Duplex)   |
| Clapet de non retour:  | Fonte                 | Bronze sans Zinc      |
| Crépine d'aspiration:  | Acier inox            | Acier inox            |
| Visserie:              | Acier inox (AISI 304) | Acier inox (AISI 316) |

*Sur demande on peut fournir des pompes en Acier Inox fondé.*

Sens de rotation: Anti-horaire (*vu par la goulotte de refoulement*)

□ Tolleranze / Tolerances / Tolérances: ISO 9906- Annex 2

■ Corrente massima assorbita (motore) a 400V  
 ■ Max absorbed current (motor) at 400V  
 ■ Courant max. absorbée (moteur) at 400V

✦ Min.recommended head of water above pump suction : m

✦ Niveau min.recommandé en mètres sur l'aspiration

✦ Le potenze indicate sono valide per accoppiamenti standard. Su specifica richiesta, possono essere impiegati motori di potenza superiore.

✦ The shown motor ratings are for standard couplings. Motors with more or less ratings can be utilized to client specific request.

✦ Les puissances indiquées sont pour des accouplements standard. D'autres moteurs plus ou moins puissants peuvent être adaptés en fonction de la demande.

### Pompa radiale

Sollevamento di acqua pulita per **pozzi da 12"**  
 ◆ Max. contenuto di solidi (limo): 30g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

**Materiali:**

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
|                        | (Acqua potabile)        | (Acqua di mare)         |
| Girante radiale :      | Bronzo senza zinco      | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

Senso di rotazione: Antiorario (*visto dalla bocca di mandata*)

### Radial-Flow Pump

Clean water lifting for **wells 12"**  
 ◆ Max. content of solids (silt): 30g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

**Materials:**

|                         |                            |                            |
|-------------------------|----------------------------|----------------------------|
|                         | (Drinkwater)               | (Seawater)                 |
| Radial flow impeller :  | Zinc free Bronze           | Zinc free Bronze           |
| Pump body :             | Cast-iron                  | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420) | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                  | Zinc free Bronze           |
| Suction strainer:       | Stainless steel            | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304) | Stainless steel (AISI 316) |

Direction of rotation: Counter-clockwise (facing delivery side)

### Pompe Radiale

Soulèvement d'eau propre pour **puits de 12"**  
 u Contenu maximum de substances solides (limon): 30g/m<sup>3</sup>

**Fonctionnement:**

### Pompa Semiassiale

Sollevamento di acqua pulita per **pozzi da 12"**  
 ◆ Max. contenuto di solidi (limo): 50g/m<sup>3</sup>

**Funzionamento:**

Hz: 50    2poli    γ:1

|                        |                         |                         |
|------------------------|-------------------------|-------------------------|
| <b>Materiali:</b>      | (Acqua potabile)        | (Acqua di mare)         |
| Girante semiassiale :  | Ghisa,AISI 316, Bronzo  | Bronzo senza zinco      |
| Corpo di stadio :      | Ghisa                   | Bronzo senza zinco      |
| Albero:                | Acciaio inox (AISI 420) | Acciaio inox (Duplex)   |
| Valvola di ritegno:    | Ghisa                   | Bronzo senza zinco      |
| Griglia d'aspirazione: | Acciaio inox            | Acciaio inox            |
| Viteria:               | Acciaio inox (AISI 304) | Acciaio inox (AISI 316) |

*A richiesta si possono fornire pompe in Acciaio Inox fuso.*

Senso di rotazione: Antiorario (visto dalla bocca di mandata)

### Mixed-Flow Pump

Clean water lifting for **wells 12"**  
 ◆ Max. content of solids (silt): 50g/m<sup>3</sup>

**Operation:**

Hz 50    2poles    γ:1

|                         |                            |                            |
|-------------------------|----------------------------|----------------------------|
| <b>Materials:</b>       | (Drinkwater)               | (Seawater)                 |
| Mixed flow impeller :   | Cast-iron,AISI316, Bronze  | Zinc free Bronze           |
| Pump body :             | Cast-iron                  | Zinc free Bronze           |
| Shaft:                  | Stainless steel (AISI 420) | Stainless steel (Duplex)   |
| Non-return valve:       | Cast-iron                  | Zinc free Bronze           |
| Suction strainer:       | Stainless steel            | Stainless steel            |
| Nuts, bolts and screws: | Stainless steel (AISI 304) | Stainless steel (AISI 316) |

*On request the pumps can be manufactured in cast Stainless Steel.*

Direction of rotation: Counter-clockwise (facing delivery side)

### Pompe Semiassiale

Soulèvement d'eau propre pour **puits de 12"**  
 u Contenu maximum de substances solides (limon):50g/m<sup>3</sup>

**Fonctionnement:**

Hz 50    2poles    γ:1

|                        |                         |                       |
|------------------------|-------------------------|-----------------------|
| <b>Materiaux:</b>      | (eau potable)           | (Eau de mer)          |
| Roue helicocentrifuge: | Fonte, AISI 316, Bronze | Bronze sans Zinc      |
| Corps d'étage:         | Fonte                   | Bronze sans Zinc      |
| Arbre:                 | Acier inox (AISI 420)   | Acier inox (Duplex)   |
| Clapet de non retour:  | Fonte                   | Bronze sans Zinc      |
| Crépine d'aspiration:  | Acier inox              | Acier inox            |
| Visserie:              | Acier inox (AISI 304)   | Acier inox (AISI 316) |

*Sur demande on peut fournir des pompes en Acier Inox fondé.*

Sens de rotation: Anti-horaire (vu par la goulotte de refoulement)
